CONTENTS OF VOLUME 27

NUMBERS 1–2

SPECIAL ISSUE
Brain development, Sex Differences and Stress: Implications for Psychopathology

	Preface	
G. Laviola and S. L. Andersen	Brain development, sex differences and stress: implications for psychopathology	1
S. L. Andersen	Trajectories of brain development: point of vulnerability or window of opportunity?	3
G. Laviola, S. Macrì, S. Morley-Fletcher and W. Adriani	Risk-taking behavior in adolescent mice: psychobiological determinants and early epigenetic influence	19
M. H. Teicher, S. L. Andersen, A. Polcari, C. M. Anderson, C. P. Navalta and D. M. Kim	The neurobiological consequences of early stress and childhood maltreatment	33
K. Matthews and T. W. Robbins	Early experience as a determinant of adult behavioural responses to reward: the effects of repeated maternal separation in the rat	45
C. R. Pryce and J. Feldon	Long-term neurobehavioural impact of the postnatal environment in rats: manipulations, effects and mediating mechanisms	57
F. Cirulli, A. Berry and E. Alleva	Early disruption of the mother–infant relationship: effects on brain plasticity and implications for psychopathology	73
S. Levine and T. Mody	The long-term psychobiological consequences of intermittent postnatal separation in the squirrel monkey	83
P. Boksa and B. F. El-Khodor	Birth insult interacts with stress at adulthood to alter dopaminergic function in animal models: possible implications for schizophrenia and other disorders	91
M. D. De Bellis and M. S. Keshavan	Sex differences in brain maturation in maltreatment-related pediatric posttraumatic stress disorder	103
S. Maccari, M. Darnaudery, S. Morley-Fletcher, A. R. Zuena, C. Cinque and O. Van Reeth	Prenatal stress and long-term consequences: implications of glucocorticoid hormones	119
D. Viggiano, L. A. Ruocco, M. Pignatelli, G. Grammatikopoulos and A. G. Sadile	Prenatal elevation of endocannabinois corrects the unbalance between dopamine systems and reduces activity in the Naples High Excitability rats	129
I. Branchi, Z. Bichler, J. Berger-Sweeney and L. Ricceri	Animal models of mental retardation: from gene to cognitive function	141
R. F. Genn, S. A. Tucci, A. Thomas, J. E. Edwards and S. E. File	Age-associated sex differences in response to food deprivation in two animal tests of anxiety	155
E. Tirelli, G. Laviola and W. Adriani	Ontogenesis of behavioral sensitization and conditioned place preference induced by psychostimulants in laboratory rodents	163
A. Sgoifo, F. Braglia, T. Costoli, E. Musso, P. Meerlo, G. Ceresini and A. Troisi	Cardiac autonomic reactivity and salivary cortisol in men and women exposed to social stressors: relationship with individual ethological profile	179

NUMBER 3

Ph. De Witte, E. Pinto, M. Ansseau and P. Verbanck	Alcohol and withdrawal: from animal research to clinical issues	189
J. C. Cole and H. R. Sumnall	The pre-clinical behavioural pharmacology of 3,4-methylenedioxymethamphetamine (MDMA)	199
M. J. Summers, S. F. Crowe and K. T. Ng	Memory retrieval in the day-old chick: a psychobiological approach	219
K. Erickson, W. Drevets and J. Schulkin	Glucocorticoid regulation of diverse cognitive functions in normal and pathological emotional states	233
T. V. Sewards and M. A. Sewards	Fear and power-dominance motivation: proposed contributions of peptide hormones present in cerebrospinal fluid and plasma	247
A. H. C. Wong and H. H. M. Van Tol	Schizophrenia: from phenomenology to neurobiology	269

NUMBER 4

SPECIAL ISSUES
The Developmental Role of the Cholinergic Basal Forebrain

D. A. Wilson and R. J. Stevenson	Olfactory perceptual learning: the critical role of memory in odor discrimination	307
M. W. G. Nijhuis-van der Sanden, P. A. T. M. Eling and B. J. Otten	A review of neuropsychological and motor studies in Turner Syndrome	329
J. Kalinowski and T. Saltuklaroglu	Choral speech: the amelioration of stuttering via imitation and the mirror neuronal system	339
J. Berger-Sweeney, C. Hohmann and L. Ricceri	Introduction	349
C. F. Hohmann	A morphogenetic role for acetylcholine in mouse cerebral neocortex	351
B. A. Pappas and N. Sherren	Neonatal 192 IgG-saporin lesion of forebrain cholinergic neurons: focus on the life span?	365
L. Ricceri	Behavioral patterns under cholinergic control during development: lessons learned from the selective immunotoxin 192 IgG saporin	377
W. H. Meck and C. L. Williams	Metabolic imprinting of choline by its availability during gestation: implications for memory and attentional processing across the lifespan	385
J. Berger-Sweeney	The cholinergic basal forebrain system during development and its influence on cognitive processes: important questions and potential answers	401

NUMBER 5

A. S. Clark and L. P. Henderson	Behavioral and physiological responses to anabolic-androgenic steroids	413
K. C. Horner	The emotional ear in stress	437
S. Glover	Optic ataxia as a deficit specific to the on-line control of actions	447
L. Lu, J. D. Shepard, F. S. Hall and Y. Shaham	Effect of environmental stressors on opiate and psychostimulant reinforcement, reinstatement and discrimination in rats: a review	457

NUMBER 6

C. A. Shaw and J. M. B. Wilson	Analysis of neurological disease in four dimensions: insight from ALS-PDC epidemiology and animal models	493
M. M. Vanyukov, R. E. Tarter, L. Kirisci, G. P. Kirillova, B. S. Maher and D. B. Clark	Liability to substance use disorders: 1. Common mechanisms and manifestations	507
M. M. Vanyukov, L. Kirisci, R. E. Tarter, H. F. Simkevitz, G. P. Kirillova, B. S. Maher and D. B. Clark	Liability to substance use disorders: 2. A measurement approach	517
M. H. Joseph, K. Datla and A. M. J. Young	The interpretation of the measurement of nucleus accumbens dopamine by in vivo dialysis: the kick, the craving or the cognition?	527
A. G. Phillips, S. Ahn and J. G. Howland	Amygdalar control of the mesocorticolimbic dopamine system: parallel pathways to motivated behavior	543
C. A. Heidbreder and H. J. Groenewegen	The medial prefrontal cortex in the rat: evidence for a dorso-ventral distinction based upon functional and anatomical characteristics	555

NUMBER 7

SPECIAL ISSUE
Mesocorticolimbic Branches and ADHD Variants

	Editorial	
E. J. Sonuga-Barke and A. G. Sadile	Mesocorticolimbic Branches and ADHD Variants	581
J. A. Sergeant, H. Geurts, S. Huijbregts, A. Scheres and J. Oosterlaan	The top and the bottom of ADHD: a neuropsychological perspective	583
E. J. S. Sonuga-Barke	The dual pathway model of AD/HD: an elaboration of neuro-developmental characteristics	593

K.-H. Krause, S. H. Dresel, J. Krause, C. la Fougere and M. Ackenheil	The dopamine transporter and neuroimaging in attention deficit hyperactivity disorder	605
J. M. Swanson and N. D. Volkow	Serum and brain concentrations of methylphenidate: implications for use and abuse	615
D. Viggiano, L. A. Ruocco and A. G. Sadile	Dopamine phenotype and behaviour in animal models: in relation to attention deficit hyperactivity disorder	623
W. Adriani, A. Caprioli, O. Granstrem, M. Carli and G. Laviola	The spontaneously hypertensive-rat as an animal model of ADHD: evidence for impulsive and non-impulsive subpopulations	639
E. Carboni, A. Silvagni, V. Valentini and G. Di Chiara	Effect of amphetamine, cocaine and depolarization by high potassium on extracellular dopamine in the nucleus accumbens shell of SHR rats. An in vivo microdyalisis study	653
D. Leo, E. Sorrentino, F. Volpicelli, M. Eyman, D. Greco, D. Viggiano, U. di Porzio and C. Perrone-Capano	Altered midbrain dopaminergic neurotransmission during development in an animal model of ADHD	661
V. A. Russell	Dopamine hypofunction possibly results from a defect in glutamate-stimulated release of dopamine in the nucleus accumbens shell of a rat model for attention deficit hyperactivity disorder—the spontaneously hypertensive rat	671
D. Viggiano, D. Vallone, L. A. Ruocco and A. G. Sadile	Behavioural, Pharmacological, morpho-functional, molecular studies reveal a hyperfunctioning mesocortical dopamine system in an animal model of attention deficit and hyperactivity disorder	683

NUMBER 8

SPECIAL ISSUE

Foundations and Innovations in the Neuroscience of Drug Abuse.

In Honour of the work of Roger Brown

J. Frascella, M. R. Lynch, N. Pilotte and D. Thomas	Editorial	691
J. B. Appel, W. B. West and J. Buggy	LSD, 5-HT (serotonin), and the evolution of a behavioral assay	693
S. A. Deadwyler, S. Hayashizaki, J. Cheer and R. E. Hampson	Reward, memory and substance abuse: functional neuronal circuits in the nucleus accumbens	703
A. Larsson and J. A. Engel	Neurochemical and behavioral studies on ethanol and nicotine interactions	713
A. Ettenberg	Opponent process properties of self-administered cocaine	721
G. F. Gebhart	Descending modulation of pain	729
G. F. Koob, S. H. Ahmed, B. Boutrel, S. A. Chen, P. J. Kenny, A. Markou, L. E. O'Dell, L. H. Parsons and P. P. Sanna	Neurobiological mechanisms in the transition from drug use to drug dependence	739
J. A. Harvey	Cocaine effects on the developing brain: current status	751
A. E. Kelley	Ventral striatal control of appetitive motivation: role in ingestive behavior and reward-related learning	765
C. Kornetsky	Brain-stimulation reward, morphine-induced oral stereotypy, and sensitization: implications for abuse	777
K. A. Miczek, H. E. Covington III, E. M. Nikulina Jr and R. P. Hammer	Aggression and defeat: persistent effects on cocaine self-administration and gene expression in peptidergic and aminergic mesocorticolimbic circuits	787
D. Morgan and D. C. S. Roberts	Sensitization to the reinforcing effects of cocaine following binge-abstinent self-administration	803
L. J. Porrino, J. B. Daunais, H. R. Smith and M. A. Nader	The expanding effects of cocaine: studies in a nonhuman primate model of cocaine self-administration	813
U. D. McCann and G. A. Ricaurte	Amphetamine neurotoxicity: accomplishments and remaining challenges	821
P. Vezina	Sensitization of midbrain dopamine neuron reactivity and the self-administration of psychomotor stimulant drugs	827
J. E. Smith, C. Co, X. Yin, G. M. Sizemore, A. Liguori, W. E. Johnson III and T. J. Martin	Involvement of cholinergic neuronal systems in intravenous cocaine self-administration	841
